

Azure: Costs reduction 1-day briefing

Awara IT offers 1-day briefing about Azure cost reduction options, saving and optimizing resources and overall knowing more about Azure. This briefing will be helpful for both existing Microsoft Azure users and those choosing between cloud platforms.

Deliverables:

- Know more about free Azure services, and if Azure can be used for free
- You will find out how to optimize Azure resources usage with just configuring schedules, elasticity,
- Understand how to find the right services for your business challenges.

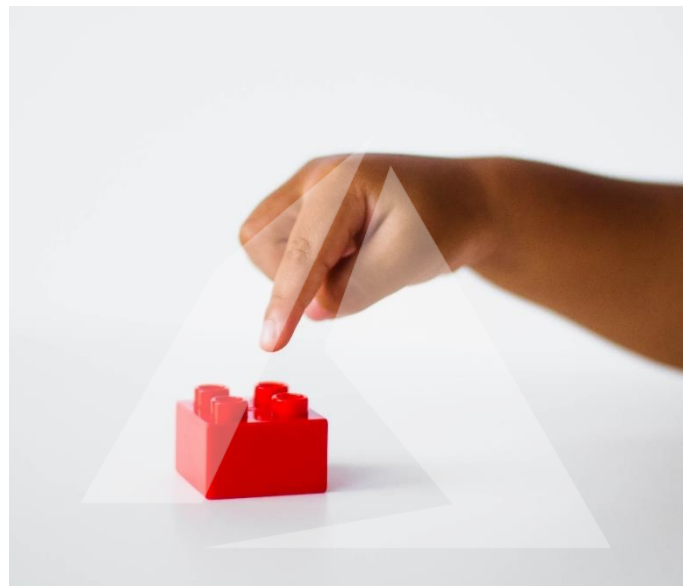

For whom

Companies that already use Microsoft Azure

Companies that are choosing between cloud platforms or plan to upgrade to Microsoft Azure from local resources.

Contents

Part 1: How to buy Azure services or resources and to spend less

Part 2: Awara IT experts will explain how to create solutions in a faster and cheaper way with Microsoft Azure.

Part 3: Analysis of the existing Azure services and recommendation on using other/new services

Part 4: Examples and demonstrations

Example

You might use VM for sound recognition and automated transcriptions, or instead you might just use Azure Speech Recognition.

For Azure newcomers we will demonstrate services that help your companies work efficiently and optimize budgets.
