

ACT Supported Azure Services

Consulting, Implementation and Managed Services support provided for the following Azure services

<u>Compute</u>	<u>Storage</u>	<u>Migration</u>	<u>Networking</u>	<u>Management</u>
• Virtual Machines • Batch • Virtual Machine Scale Sets • Web Apps • Linux Virtual Machines • Windows Virtual Desktop	• Storage Accounts • StorSimple • Blob Storage • Disk Storage • Managed Disks • File Storage • Archive Storage • Storage Explorer	• Azure Site Recovery • Azure Migrate • Azure Database Migration Service	• Azure DNS • Virtual networks • Traffic Manager • Load Balancer • Virtual WAN • Azure DDoS Protection • Network Watcher • Azure Firewall	• Azure Backup • Cost Management • Azure Update Scheduler • Automation • Azure Monitor • Azure Service Health • Microsoft Azure Portal • Azure Resource Manager • Azure Advisor

ACT Certified Expertise & Experience

Managed Services Support

Compute

Access cloud compute capacity and scale on demand—and only pay for the resources you use (pay-as-you-go)

Virtual Machines

Provision Windows and Linux virtual machines in seconds

Batch

Cloud-scale job scheduling and compute management

SQL Server on Virtual Machines

Host enterprise SQL Server apps in the cloud

Virtual Machine Scale Sets

Manage and scale up to thousands of Linux and Windows virtual machines

Web Apps

Quickly create and deploy mission critical web apps at scale

Linux Virtual Machines

Provision virtual machines for Ubuntu, Red Hat, and more

Windows Virtual Desktop

Deliver a virtual desktop experience to any device at cloud scale

Storage

Get secure, massively scalable cloud storage for your data, apps, and workloads

Storage Accounts

Durable, highly available, and massively scalable cloud storage

StorSimple

Lower costs with an enterprise hybrid cloud storage solution

Blob Storage

REST-based object storage for unstructured data

Disk Storage

Persistent, secured disk options supporting virtual machines

Managed Disks

Persistent, secured disk storage for Azure virtual machines

File Storage

File shares that use the standard SMB 3.0 protocol

Archive Storage

Industry leading price point for storing rarely accessed data

Storage Explorer

View and interact with multiple Azure Storage resources at the same time

Migration

Simplify and accelerate your migration to the cloud with guidance, tools, and resources

Azure Site Recovery

Keep your business running with built-in disaster recovery service

Cost Management

Optimize what you spend on the cloud, while maximizing cloud potential

Azure Database Migration Service

Simplify on-premises database migration to the cloud

Azure Migrate

Easily discover, assess, right-size, and migrate your on-premises VMs to Azure

Networking

Connect and secure cloud and on-premises infrastructure and services to provide your customers and users the best possible experience

Azure DNS

Host your DNS domain in Azure

Virtual Networks

Provision secure private networks

Traffic Manager

Route incoming traffic for high performance and availability

Load Balancer

Deliver high availability and network performance to your applications

Virtual WAN

Optimize and automate site-to-site and point-to-site VPN connectivity through Azure

ExpressRoute

Dedicated private network fiber connections to Azure

Azure DDoS Protection

Protect your applications from Distributed Denial of Service (DDoS) attacks

Network Watcher

Network performance monitoring and diagnostics solutions

Azure Firewall

Native firewalling capabilities with built-in high availability, unrestricted cloud scalability, and zero maintenance

Management and Governance

Simplify, automate, and optimize the management and compliance of your cloud resources

Azure Backup

Simplify data protection and protect against ransomware

Azure Update

Automatically update your Windows and Linux machines

Scheduler

Run your jobs on simple or complex recurring schedules

Automation

Simplify cloud management with process automation

Azure Monitor

Full observability into your applications, infrastructure, and network

Azure Service Health

Personalized guidance and support for when issues in Azure services affect you

Microsoft Azure portal

Build, manage, and monitor all Azure products in a single, unified console

Azure Resource Manager

Simplify how you manage your app resources

Azure Advisor

Your personalized Azure best practices recommendation engine
