

Oracle database on Azure platform and effective license optimization.

We support the launch of Oracle applications and database. We secure best license adjustment and implementations fully compliant with the Oracle requirements.

Managing the license selection process and optimal use of Oracle software.

Three key elements of Oracle environment audit performed by Cloud by Asseco experts

1. Report on the currently owned software

2. Optimization and corrective conclusions and recommendations

3. Recommendation for effective use of Oracle

Customers' opinions

As many as **78%** of our customers speak highly of cooperation with **Asseco Data Systems** highlighting great cooperation with the engineers team and tailoring solutions to the needs, requirements and capabilities of the particular organization.

* survey conducted on a group of 100 customers in January 2020.
