Lixar Wins Microsoft's AI Innovation Award

✓ LIXAR / JULY 15, 2019 / [NEWS](#)

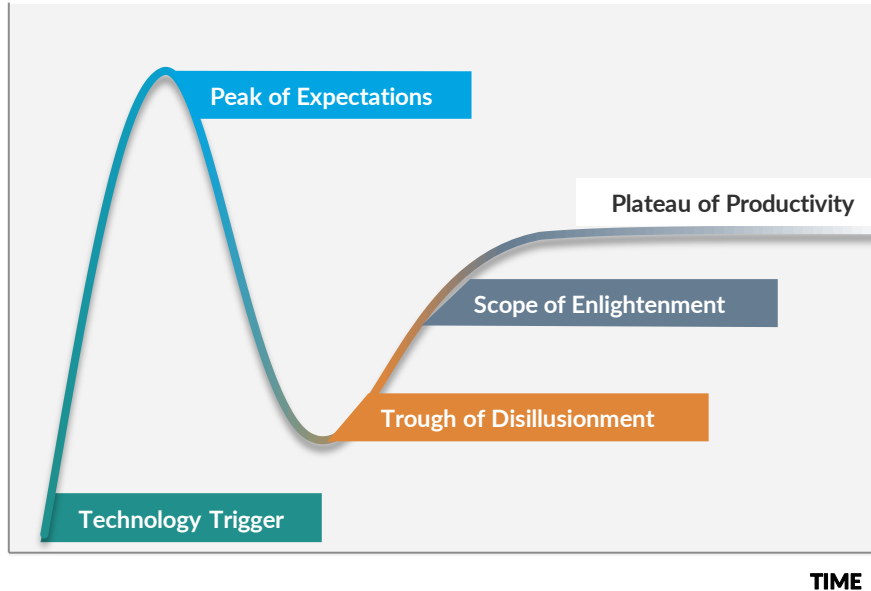

July 15, 2019, Las Vegas, Nevada – Lixar wins Microsoft AI Innovation Award.

Announced at Microsoft Inspire, the Impact award honoured Lixar for using the power of machine learning and Artificial Intelligence (AI) to derive insights to help their customers optimize operations, drive innovation, and deliver real value.

TYPICAL CLOUD ADOPTION CYCLE

BDO has helped advance the Cloud Journey for enterprises large and small. A consistent pattern in the adoption of Cloud is that it seems to follow the traditional Hype Cycle of critical technology adoption.

VISIBILITY

Enterprise adoption of cloud seems to follow the traditional hype cycle for technology

The Velocity To The Plateau Of Productivity Is A Key Indicator In Mainstream Business Adoption

Managing Expectations In The Trough Of Disillusionment Is often The Difference Between Cloud Adoption Success and Failure

CURRENT STATE OF CLOUD ADOPTION FOR MANY ENTERPRISES

1. Lack Of Cloud Adoption Scale for Large Application and Data Portfolio's

2. Complicated cloud infra that is difficult to use, manage, and govern across complex hybrid and multi-cloud environments

3. Lack of Business Buy-in resulting in limited uptake and momentum for large scale adoption.

4. Concerns about Security, Risk, Governance and Compliance – lack of mature/ standardized cloud security and governance

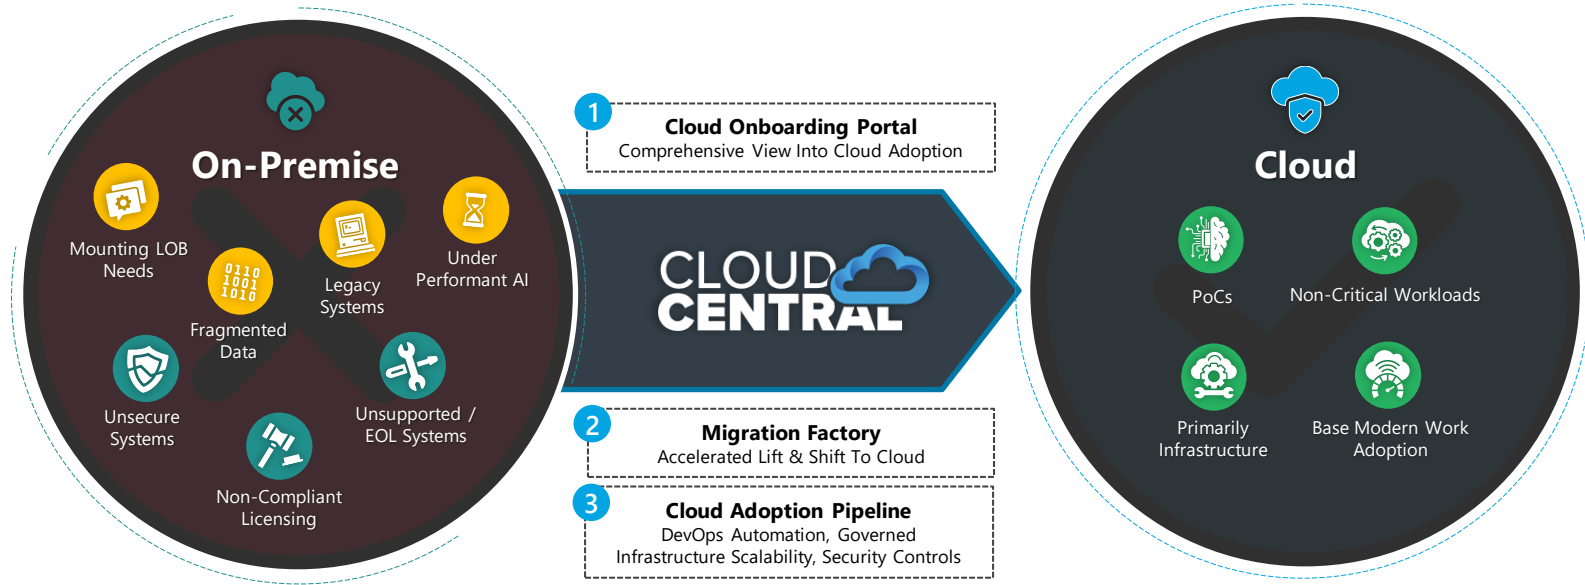

5. Limited IT Cloud capabilities throttling the velocity of cloud adoption.

6. Cloud cost and consumptions is difficult to manage – no formal tools/ processes/ programs for spend control

CURRENT STATE OF CLOUD ADOPTION FOR MANY ENTERPRISES

Self - Assessment Questions

Q1: Is your application a SOX/SOC1 app? * ①

☐ Yes, SOX ☐ Yes, SOC1 ☐ Yes, Both ☐ No

Q2: Does your application or the workload you intend on deploying on Cloud have PII? * ①

☐ Yes ☐ No

Q3: Is your app stateless? * ①

☐ Yes ☐ No ☐ I don't know

Q4: Does your app require Persistent Volumes on cloud? * ①

☐ Yes ☐ No ☐ I don't know

Q5: Is your application external facing? * ①

☐ Yes ☐ No

Q6: What volumes of traffic does your use case need to manage? * ①

☐ 1-1000 ☐ 1000-10000
