

GreenOps

claranet®

Provide visibility on the environmental impact of the Cloud
and optimise it by making the right compromises.

Ensure that your cloud services has the lowest possible
environmental impact.

claranet[®]

Understanding carbon emissions

Scope 1

Direct Emissions

Scope 2

Indirect Emissions

Scope 3

Indirect Value-Chain
Emissions

A constantly changing landscape

100% renewable energy by 2025

Carbon negative and water positive by 2030

Emissions Impact Dashboard for Azure

Our GreenOps tooling

Multi-cloud view and
consistent reporting

Increased visibility

More granular data
estimates than the
cloud native tools

Powerful algorithms,
regularly updated as
information changes

Tracks progress
against long term
sustainability targets

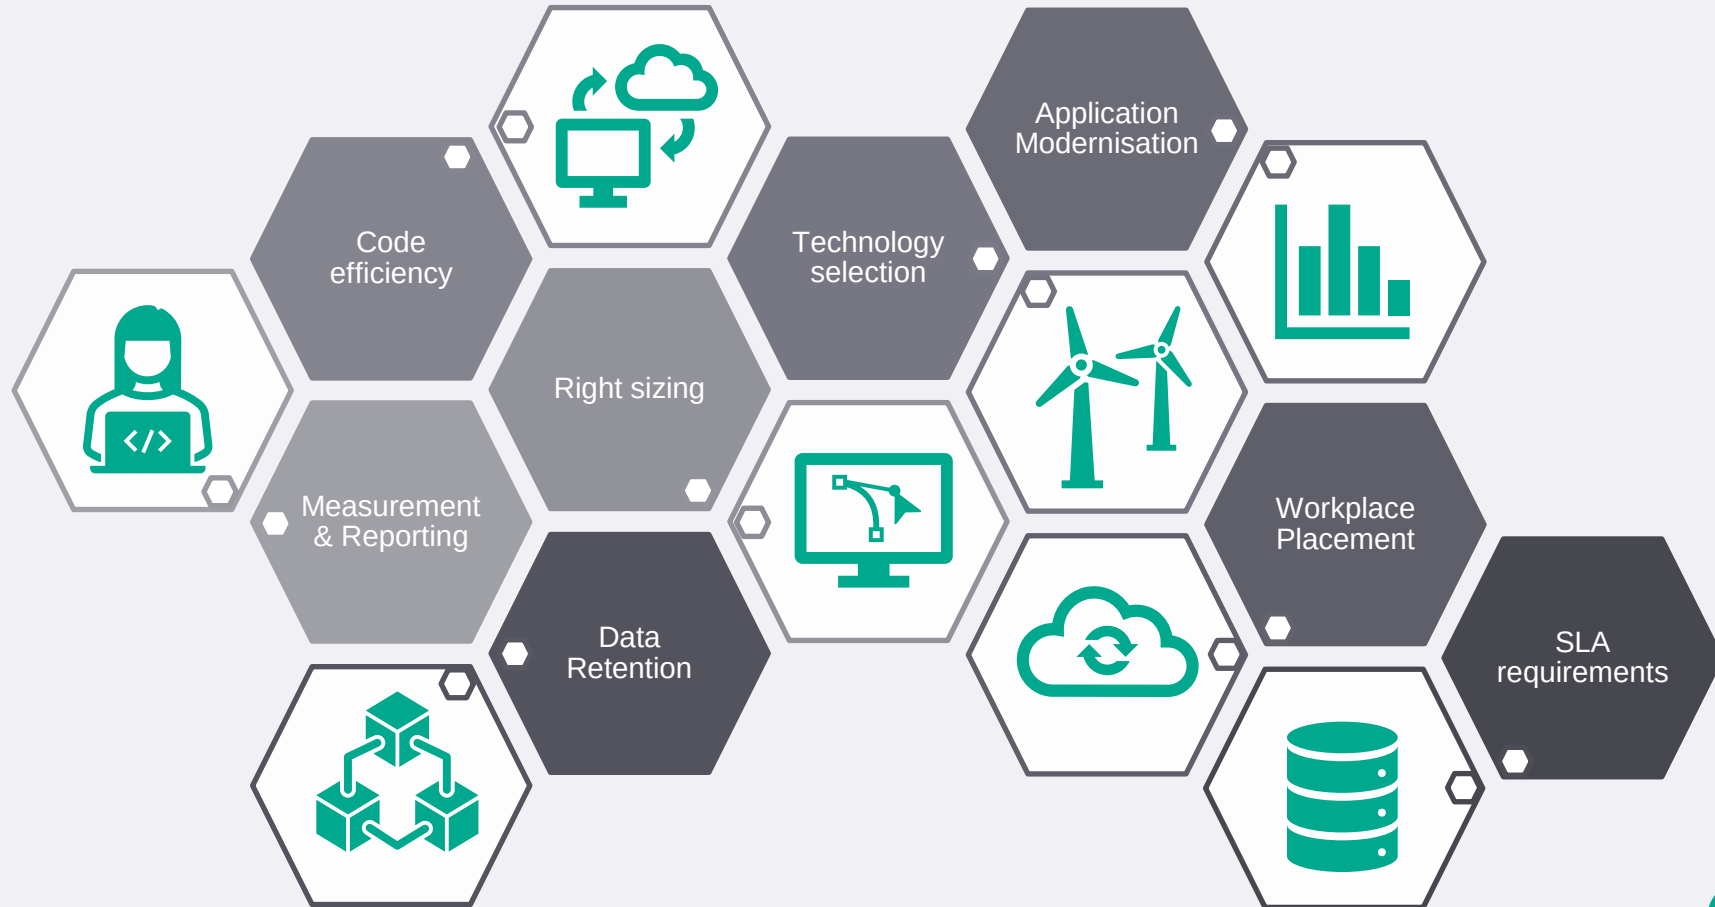

View data how you need
it, e.g. by department or
application

claranet[®]

Helping you make better choices

Our approach

- Gain visibility of your emissions
- Identify the opportunities to optimise
- Create the **policies** and **governance** around monitoring emissions
- Adopt a **lean-centric culture**

The desired end state

Ensure that your cloud services have the lowest possible environmental impact.

Two tiers of service

Enhanced

Pro-active GreenOps Delivery

- Bespoke recommendations
- Expert-led, monthly workshops
- Definition and implementation of policies
- Led by our team of expert cloud economists

Standard

Reporting and Advice

- GreenOps training
- Quarterly reporting
- GreenOps support
- Self service

This is a **huge step forward** for us.
We can now map out our future as a
cloud-native, scalable, resilient, and
sustainable business.”

- Mark Wiltshire
Head of Architecture, Kier Group

How we support your journey

Design

Working collaboratively, we help you understand your current state and develop a cloud migration roadmap and business case.

Move

Implement your cloud migration strategy and optimise it for success, efficiency and cost reductions.

Lead

Once you're in the cloud, you're ready to take the opportunities it creates: optimise, innovate, experiment, grow.

Cloud capability

Advisory & Consulting

World-leading expertise
Defined business outcomes

3000 Claranet staff in ten countries.
Global Revenues in excess
of £500 million

Migration & Adoption

Project execution in safe hands

One of five global organisations with
Premier Partner status with Microsoft
Azure

Operation & Innovation

We design with the run in mind

Only Company that Delivers
Mode 1&2 operations over the three
main cloud providers

claranet®

Award-winning Capability

Claranet featured as a leader in the ISG Managed Public Cloud Services

claranet[®]

What our customers say about us:

“Transition was well managed, very flexible provider, great skills and pragmatic, by combining all this they are the right partner for dynamic workloads”

“Very good partner relationship. Projects are managed by experts with serious accuracy”

“Claranet’s three main strengths are expertise, performance and reactivity”

“Working with Claranet means working with experts with multiple skills in cloud”
