Data Mesh For Me: 2-Week Strategic Assessment

Data Mesh For Me: 2-Week Strategic Assessment

Overview

Duration:

2-Week

Location:

Online / Onsite

Format:

Assessment

Overview:

This practical and interactive engagement is the right option for companies which want to assess whether data mesh is the right model for them to follow and how they can benefit from transforming their current state to a data mesh model.

The assessment will be conducted by two experienced Lingaro Data Strategy consultants.

Price:

\$10,000 USD

(doesn't include travel expenses if conducted onsite)

Outcomes:

By the end of the engagement, you will get a comprehensive assessment covering:

- How your organization's problems and needs fit the solutions proposed by data mesh concept
- A recommendation on best model to adapt following data mesh principles
- Azure capabilities and strengths assessment covering key areas which your company needs to focus on in moving to the data mesh model

Target Audience:

The workshop is aimed at decision-makers and should ideally consist of 5 to 8 participants from the following areas:

- CIO/CTO/CDO
- Head of Data & Analytics
- Head of Data Management
- Director of Advanced Analytics
