

Migrate your SAP on Azure

A faster and more cost-efficient methodology

Version 1.0

Gold Cloud Platform
Gold Datacenter

Lack of knowledge & High Total Cost of Ownership

When it comes to ERP, usually organizations faced some challenges such as: difficulties in using data outside of SAP apps and structures, lack of strong competency in data development and engineering, delay in reporting and high costs for native analytics tools.

CHALLENGES

- Lack of SAP platform knowledge
- Big Bang approach
- Complexity management

IDEAL SOLUTION

- Best in class experience on Azure and SAP
- Incremental approach
- Consolidated methodology

DESIRED OUTCOMES

- Pre-built and all-inclusive packages
- Transparents costs
- Quick time

A new methodology for SAP on Azure implementation

The method designed by SoftJam is based on some accelerators that allows organization to implement SAP on Azure within competitive time and costs.

1

SPEED UP THE TIMES

with a 75% faster implementation.

Leverage SAP best practices to reduce implementation time to 3 months.

2

REDUCE YOUR COSTS

Cost and effort savings of up to 30%.

For both greenfield and brownfield projects, total costs are almost halved.

3

ENJOY MICROSOFT INTEGRATION

Take advantage from the single sign-on, Microsoft 365 collaboration tools and Azure Services integration.

SoftJam SAP migration & Microsoft Azure

Leveraging the historical partnership between Microsoft and SAP and based on the best-in-class experience on both platforms, SoftJam made a proposition with a methodology for reaching results on certain time and costs.

EMBRACE ENGAGEMENT AND SERVICES

Assessment and discovery bringing together customer, SAP, Microsoft Azure and System Integrators for a successful lift and shift to the Intelligent Enterprise.

REFERENCE ARCHITECTURE

Incorporates the required SAP and Microsoft Azure technologies to run the customer's applications.

OPTIMIZED PLATFORM

Integration and extension of SAP solutions and third-party applications, running on Microsoft Azure.
