

# Accelerate your Azure Cloud Journey with Tech Mahindra

Tech Mahindra is a Certified Cloud Adoption Framework (CAF) Ready Partner, and our Azure Cloud offerings are aligned to CAF

# Azure Arc

## Azure Arc Overview

Manage & Operate infrastructure from the Azure control plane and run Azure services on your infrastructure

Gain central visibility, operations, and compliance

Build Cloud native apps anywhere, at scale

Run Azure services anywhere

## Azure Arc Solution Offering

### Hybrid and Multi Cloud Management Challenges:

- Lack of Visibility for enterprise workloads spread across On Premises, Multiple Clouds and Edge Locations
- Each Cloud Environment has own set of Management Tools and Operations hence difficult to manage
- Challenge of inventory management and organize resources spanned across Multiple Environments
- Complexity to apply standard Security Policies across different environments
- Address regulatory requirements for Governance & compliance on distributed workloads
- Complexity of Application and Data Development on various Cloud Platforms

### How Azure Arc addressing above challenges:

- **Unified View** : Single Pane of Glass to view various workloads together, such as Virtual Machines, Databases, Kubernetes clusters etc. spread across multiple cloud environments.
- **Simplified Management** : Leverage familiar Azure Management Tools, capabilities and extend Azure Services to various Cloud environments
- **Organized Resources** : Organize resources across distributed locations and ease of inventory management with searching & Indexing capabilities.
- **Standard Security** : Apply Standard security Policies for workloads spread across different environments.
- **Governance & Compliance** : Ensure consistent Governance and compliance to meet regulatory requirements
- **App and Data Modernization** : Accelerate App modernization by building cloud native apps on any environment using Kubernetes. Run Azure Data and Machine Learning Services on Kubernetes

## 1 Centralized Management

Manage various workloads together in Hybrid and Multiple Cloud environments

Manage virtual machines, Kubernetes clusters, and databases etc. outside Azure

## 2 Security and Governance

Secure and Govern Infrastructure and applications in multiple clouds managed by azure arc

Meet Governance and Compliance standards using Azure Policies

## 3 Build Cloud Native Apps

Use existing tools and practices such as Visual Studio, Terraform, GitHub to build cloud native apps

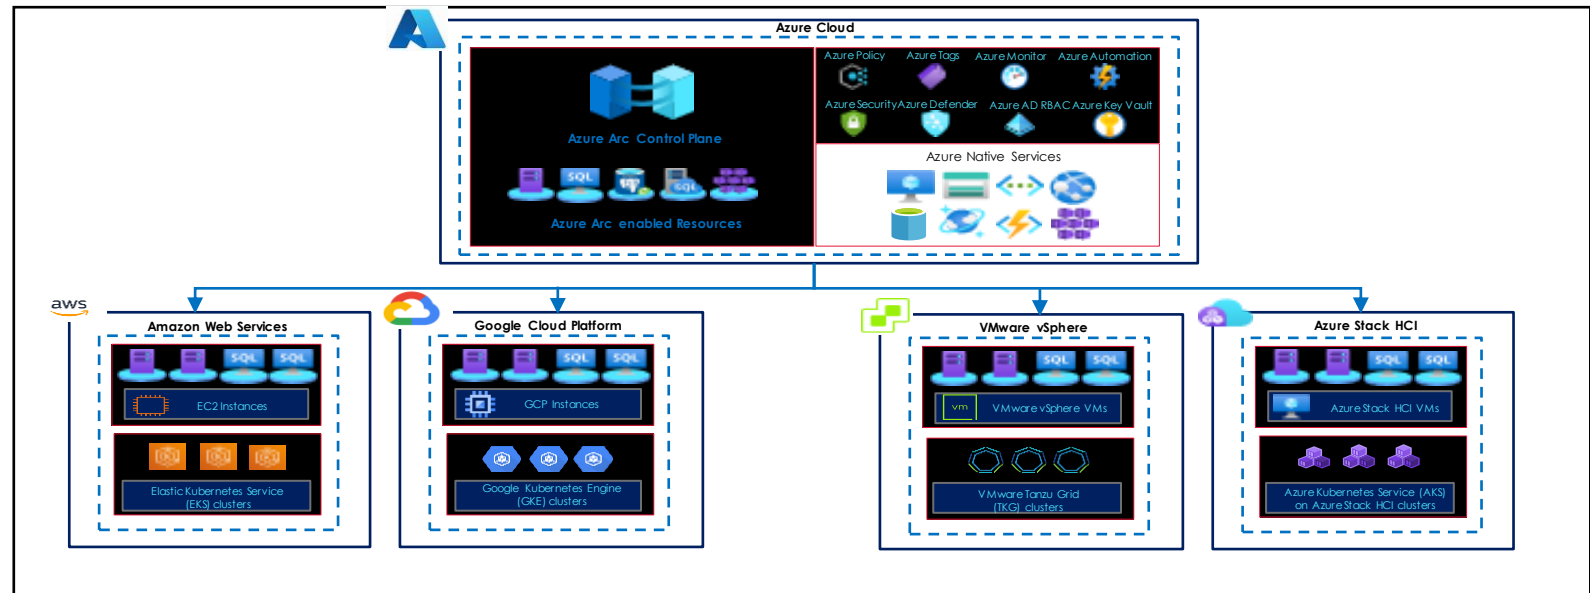

Run Azure data and machine learning services anywhere

# Our Offering and Deployment Scenarios

## What We Offer

- Consulting / Strategy / Advisory
- Assessment, Design & Procure
- Deployment / Implementation & Configuration
- Hybrid & Multi Cloud Management
- Managed Services

## Deployment Scenarios

**Value Proposition : Brainscale A Tech Mahindra Company is Launch Partner for Azure Arc**

A Hybrid Multi-Cloud Management Framework for an Accelerated Cloud Transformation

Gold Datacenter  
Gold Cloud Platform  
Gold Cloud Productivity  
Gold Data Analytics  
Silver DevOps

Tech M is Strategic Partner with Microsoft with Dedicated Azure Practice

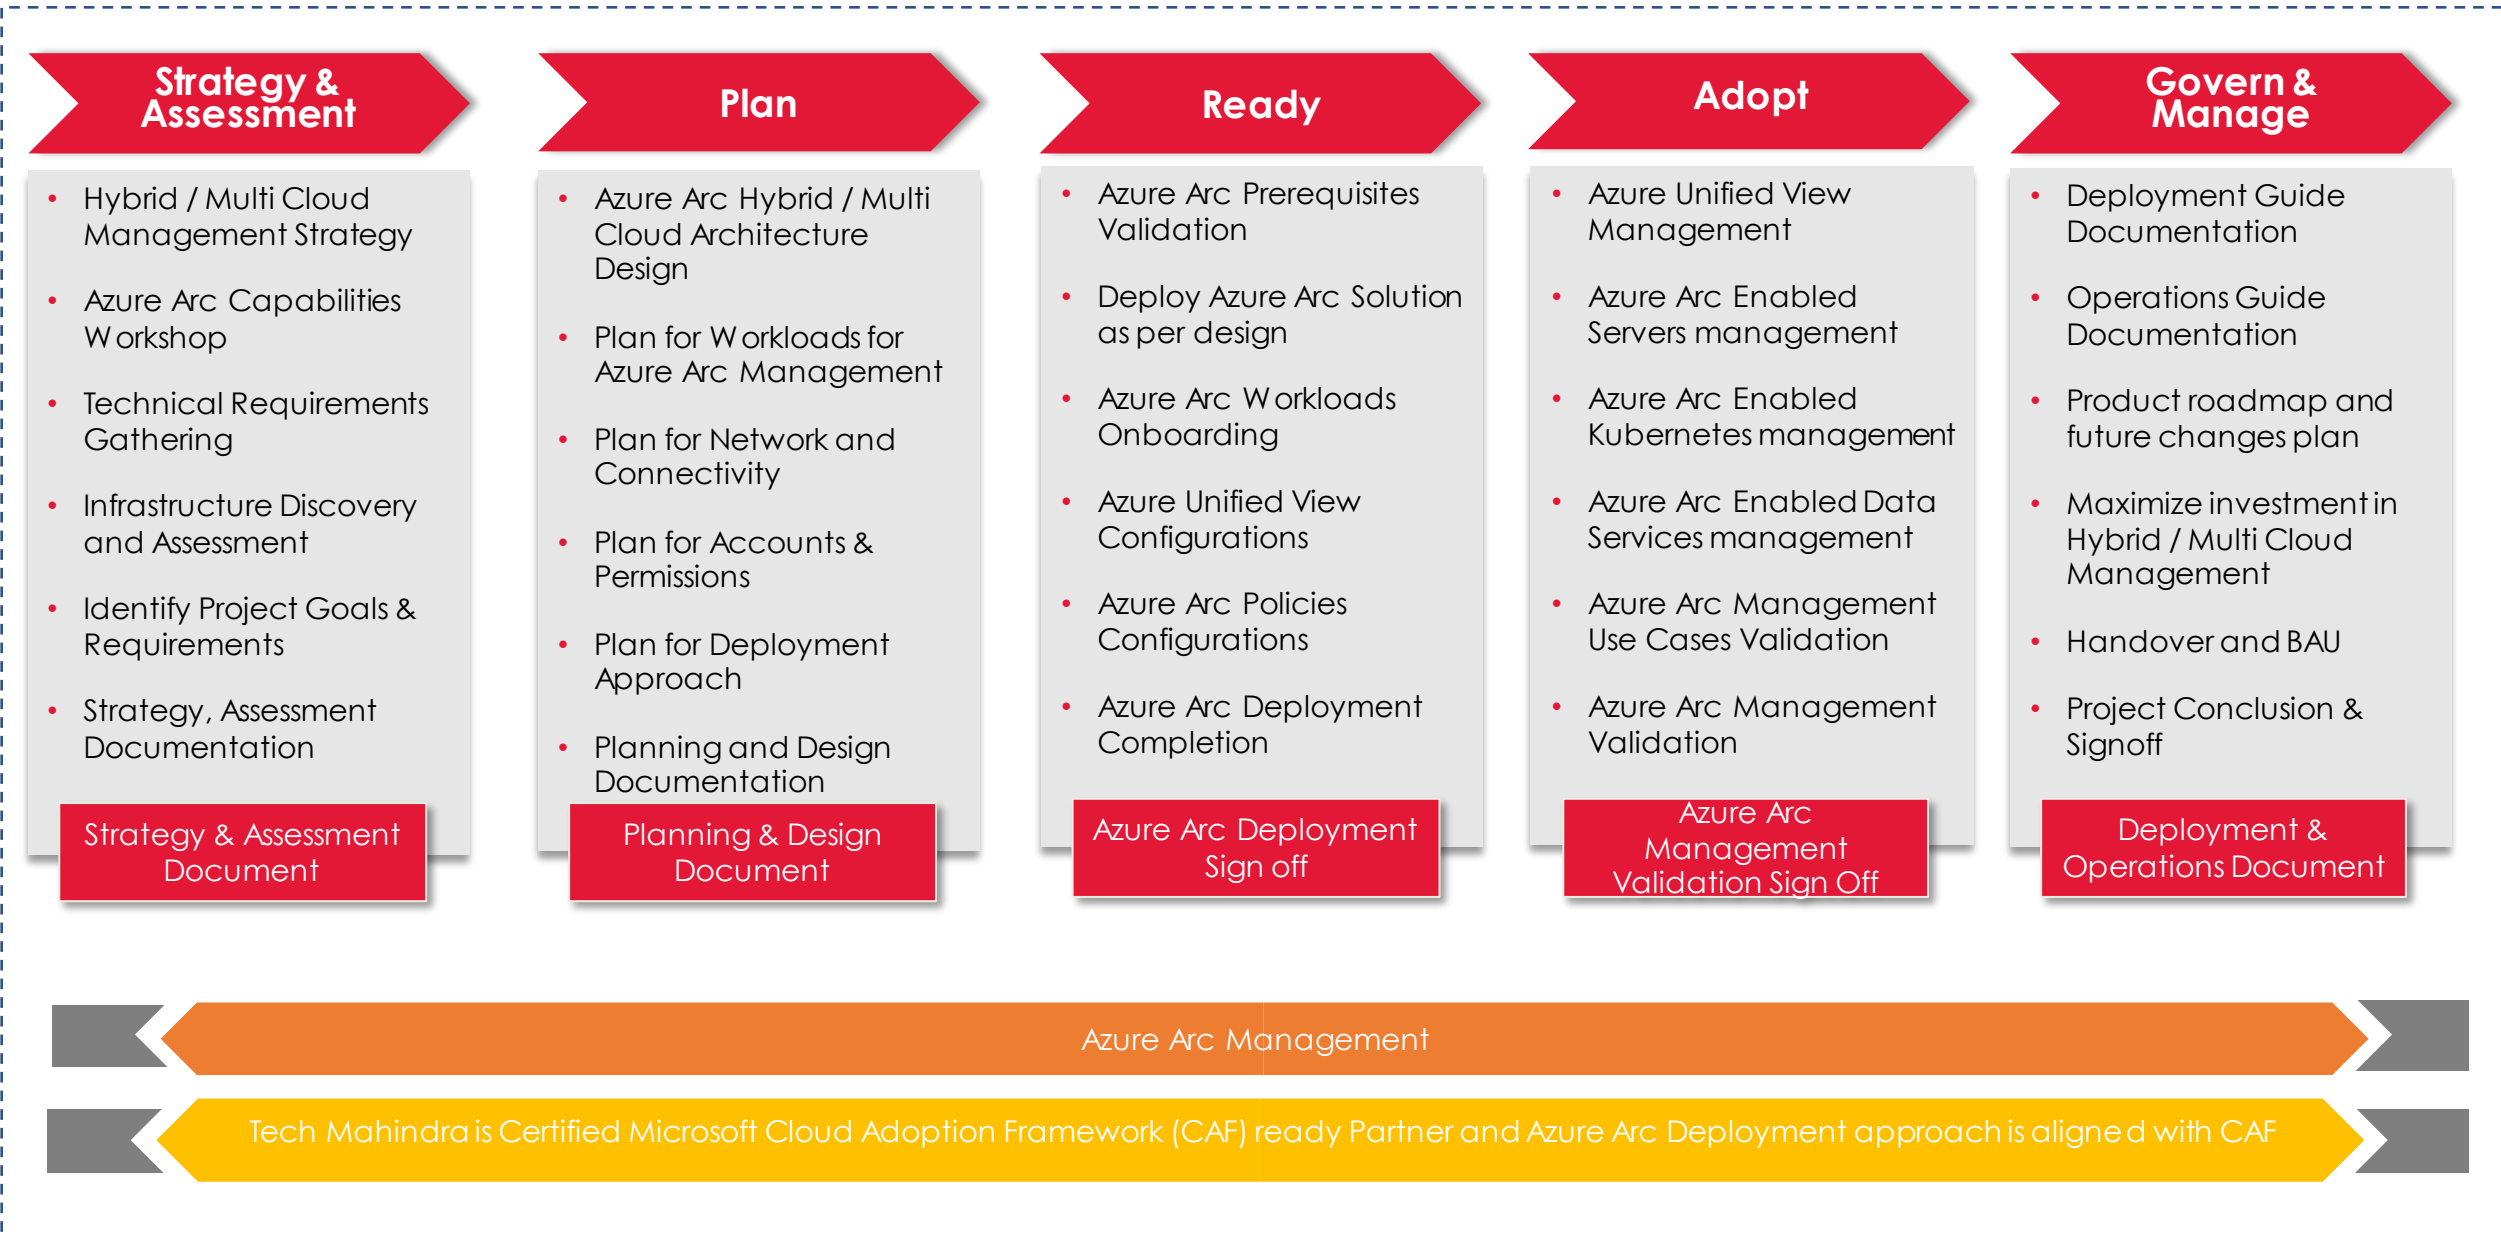

Tech Mahindra's Microsoft Specific Acquisition

Gold

Microsoft Partner  
Azure Expert MSP  
Microsoft

Tech M is an Azure Expert MSP & Networking MSP for Microsoft with 12 competencies

# Our Approach – Azure Arc Deployment

# Use Cases:

Azure Arc Enabled Servers	
Azure Services / Capabilities	Operations
Azure Policy	Assign Azure Policy guest configurations to audit settings inside the machine.
Azure Monitor	Monitor the connected machine guest operating system performance, and discover application components, their processes and dependencies with other resources using VM insights.
Microsoft Defender for Cloud	Protect non-Azure servers through Microsoft Defender for Cloud, to proactively monitor for potential security threats.
Microsoft Sentinel	Configure machines connected to Arc enabled servers with Microsoft Sentinel
Azure Automation	Automate frequent and time-consuming management tasks, configuration changes and manage operating system updates
Azure Automanage (preview)	Automate onboarding and configuration of a set of Azure services using Automanage
VM extensions	Post-deployment configuration and automation tasks for non-Azure Windows or Linux machine.

Azure Arc Enabled Kubernetes	
Azure Services / Capabilities	Operations
Connect Kubernetes cluster	Connect an existing Kubernetes cluster to Azure Arc.
Inventory & Tagging	Connect Kubernetes for inventory, grouping, and tagging.
Azure Policy for Kubernetes	Apply policy definitions using Azure Policy for Kubernetes.
Azure Monitor for containers	View and monitor clusters using Azure Monitor for containers.
Microsoft Defender for Kubernetes	Enforce threat protection using Microsoft Defender for Kubernetes.

Azure Arc enabled Data Services	
Azure Services / Capabilities	Operations
Data services	Install client tools for deploying and managing data services
SQL Managed Instance	Configure SQL managed instance, monitor, log analysis, billing information, reserve capacity, rotate certificates and delete instances
PostgreSQL Hyperscale (preview)	Configure, scale, monitor, log analysis, bill, secure, delete, manage PostgreSQL Hyperscale server group

# Managed Services:

## MANAGED SERVICES

Tech Mahindra will follow ITIL best practices for providing Managed Support Services for Azure Arc Solution management. The support is split in to three categories Level 1, Level 2 and Level 3 based on nature of the support needed.

## ENGAGEMENT MODEL – RESOURCE AND DEVICE BASED

**Dedicated Model**  
Controlled/ Customized

**Shared Model**  
Standardized/ Optimized

**Hybrid Model**  
Best of Both Worlds

## INNOVATIVE SERVICE LEVELS WITH INDUSTRY LEADING SLA'S

Service Levels		Gold Service (Prod Env)		Silver Service (Prod + Non-Prod Env)			Bronze Service (Test /PoV Env)		
SLA		99.95%		99.7%			99.5%		
Severity#	Service Hours	Response Time	Resolution Time	Service Hours	Response Time	Resolution Time	Service Hours	Response Time	Resolution Time
Sev-1	24 * 7	1 Hrs	2 Hrs	24 * 7	2 Hrs	4 Hrs	08:00 * 18:00 M-F	2 Hrs	8 Hrs
Sev-2	24 * 7	2 Hrs	4 Hrs	24 * 7	3 Hrs	6 Hrs	08:00 * 18:00 M-F	4 Hrs	1 Biz days
Sev-3	08:00 * 18:00 M-F	4 Hrs	8 Hrs	08:00 * 18:00 M-F	6 Hrs	NBD	08:00 * 18:00 M-F	8 Hours	2 Biz days
